(b) What are software licenses ? Give one example each of a free software license and a proprietary software.

17. Write any two significances of using links in an HTML webpage.

18. (a) Match the tag with their corresponding correct attribute.

| Tag     | Attribute |
|---------|-----------|
| <table> | start     |
| <input> | rowspan   |
| <ol>    | type      |
| <td>    | border    |

**OR**

(b) Differentiate between bgcolor and background attributes of <body> tag. Write one HTML statement explaining the use of each attribute.

19. Write suitable html statements to display the following text on a webpage in appropriate subscript and superscript form :

a.  $\text{H}_2\text{O}$

b.  $E = MC^2$

### SECTION C

$4 \times 3 = 12$

20. A school wants to create a webpage for the announcement of orientation programme of its Cultural Club as shown below :

**ABC International School**  
Cultural Club  
Orientation programme on 15<sup>th</sup> March 2024

The school wants all the 3 lines to appear as Headings and Subheadings :

- The first line containing its name to have the boldest possible appearance as a heading in Blue color.
- The second line containing the Club name should appear as a heading but its size should be smaller than the first line in green color.
- The third line containing the Programme details should appear as a heading and its size should be smaller than the previous two lines in Cyan color.

Suggest the html code to get the desired appearance of the lines in the webpage.
